PROFILE

Passionate about offensive security and penetration testing, active CTF player specialized in Active Directory and Web exploitation. Holder of eCPPT, CRTA and eWPTX certifications. Consistent top finisher in Moroccan CTF competitions.

ACHIEVEMENTS

1st Place — MACC 2026 (Morocco Academia Cyber Competition) 2026

Organized by DGSSI in partnership with SecDojo. Ranked 1st out of 1,100+ teams — machine-style CTF.

1st Place — CTF FS Tétouan 2026

National machine-style CTF competition covering offensive security and web exploitation.

2nd Place — AUSIM Sud Morocco CTF · 3rd Place — CyberDune CTF 2025

National machine-style CTF competitions covering offensive security and web exploitation.

CERTIFICATIONS

eCPPT (eLearnSecurity Certified Professional Penetration Tester) · CRTA (Certified Red Team Analyst — Active Directory) · eWPTX (Web App Pentester Extreme)

PROJECTS

AI-Driven Semi-Automated Pentest Framework — End-of-Year Project 2026

- Semi-automated framework driven by Artificial Intelligence, chaining reconnaissance, scanning, and exploitation tools (Nmap, Nuclei, custom scripts) with structured reporting.

File Integrity Monitoring — AIDE & SIEM — End-of-Module Project 2026

- Deployed AIDE on Linux servers and forwarded integrity alerts to a SIEM for centralized correlation and incident response.

Secure Messaging System — Cryptography (AES & RSA) 2024

- End-to-end encrypted messaging app using AES for message encryption and RSA for secure key exchange.

EXPERIENCE & ACTIVITIES

System Administration & IT Support Intern — Rezocash 2024

- Administered Windows and Linux environments, managed user accounts, and supported internal network operations.

Virtualization Intern — UNION IT Services 2023

- Deployed and maintained virtual machines on internal virtualization platforms; documented infrastructure setup.

Trainer — Secora Cybersecurity Club 2025 — Present

- Deliver hands-on training sessions on web exploitation, Active Directory attacks, and CTF methodology.

EDUCATION

Engineering Degree — Cybersecurity & Network Engineering, ENIAD Berkane 2024 — 2027

DUT — Network Administration, EST Beni Mellal 2022 — 2024

TECHNICAL SKILLS

Offensive Security: Web Pentesting, Active Directory Exploitation, Network Pentesting, Red Teaming Basics

Tools: Burp Suite, BloodHound, Impacket, CrackMapExec, Nmap, Wireshark, Metasploit, Linux (Kali, Parrot)

Other: Windows Server & Active Directory, Linux Administration, Virtualization, Cryptography (AES, RSA), SIEM, HackTheBox · TryHackMe · SecDojo
